LOSER PANORAMABAHN AN EXPERIENCE FOR ALL SEASONS

The new gondola lift operates in both summer and winter, offering breathtaking panoramic views and letting you experience the landscape from a new perspective. Barrier-free access and year-round connections to public transport make it possible for everyone to enjoy the beauty of nature.

Skiers, sledders, hikers, and paragliders can comfortably reach the mountain with the 10-person gondola lift and strollers, dogs, and bicycles are also welcome. The cable car makes it easier to enjoy the pre- and post-season, so you can actively experience the landscape even outside the busy peak times.

The Panorama lift also makes an important contribution to reducing CO_2 emissions: More than 50% of the energy is produced in-house.

AUSSEERLAND salzkammergut

THE LOSER.

Fog-free panoramic views of Ausseerland and nearby Upper Austria offer the perfect winter experience at the snow-rich Ski Resort in Altaussee. With 34 kilometers of ski runs and over 1,000 meters of elevation, the Loser is a paradise for skiers, freeriders, winter hikers, sledders, and ski tourers.

Thanks to the new, accessible 10-person Panorama lift, winter enthusiasts can reach the mountain quickly and comfortably. On wide ski runs, both beginners and advanced skiers have plenty of space to enjoy smooth gliding, carving, and turning.

HIKING, TOBOGGANING & SO MUCH MORE

Ski tourers, winter hikers, and sledders can also reach the upper slopes of Loser with selected lifts for the ultimate winter fun. A new high-altitude hiking trail at 1,600 meters invites walkers and snowshoe enthusiasts to panoramic outings.

The 8 km panoramic road offers fun for hikers and sledders, and is also the longest family run in Styria. A dedicated ski touring route leads from the Loser Plateau up to tour options all the way into the Totes Gebirge.
